Rick,

The Navy is planning to resume residential sampling on June 4 – no draft letters have been provided to EPA. I will request a model letter. Chemours is planning to resume residential sampling in June. A model letter and attachment were provided for our review. I have not heard from the ANG but will try to contact Keith Freihofer today. I will let you know what I learn.

Are Navy, ANG and Chemours going to reach out to homeowners soon to ask for agreement to resume sampling? That would be good to know, too. And, yes, we should include Chemours even though Joan only asked for Navy and ANG. If they haven't sent anything to us in writing, then can you request an example copy of a correspondence they may have sent to the homeowners notifying them of sampling program suspension?

Thanks,

Rick

Rick,

I don't believe there was a written notice, but I'll look for the emails notifying us of the suspension of residential monitoring. I think you are aware that Chemours and the Navy are planning to resume the monitoring at homes where the residents are agreeable to doing so.

Roger,

Joan is asking for copies of notices from Navy and ANG where they notified us that they were suspending their in-home PFAS sampling as required under our order. Did they ever report that to us in writing? If so, can you send me copies (emails, letters, etc.)

Thanks,

Rick

Rick,

We reported out that Chemours/Dupont Washington Works Plan, Navy, and Air National Guard sent us a notification of "suspension of drinking water PFAS sampling that requires entry into private homes. Will resume sampling once deemed safe."

Can you get me a copy of these notices? As soon as you get a chance – I have to get them into OECAs tracker, yesterday (oh well!).

Thanks,  
Joan
